Countries:
Georgia

EU contribution: € 719 841

Total budget: € 799 823

Implementer:
INSTITUTE FOR CHANGE AND INNOVATION

Funded by the European Union

Project description:
The overall objective of the GREEN project is to contribute to a more resilient and sustainable economy in West Georgia. The project is implemented in Guria, Adjara and Samegrelo by the the Institute for Change and Innovations, the Institute of Democracy and the Association Atinati.
The main target of the project will be local Business clusters/SME/Other sectoral associations, farmers, VET service providers and school students.
The duration of the project is 36 months.

Expected results:
Op1. Enhanced capacities of local businesses and sectoral associations to introduce and promote sustainable practices
Op2. Stronger availability and dissemination of information on multi-hazard in the agriculture sector
Op3. Enhanced educational and VET programmes about sustainable agriculture
