Project description:
Project "Youth Tech Clubs Network" launched by Ilia State University together with partner organizations, funded and supported by the European Union for Georgia, managed by the European Union Delegation to Georgia under the action EU Sector Reform Performance Contract (SRPC), Skills Development and Matching for Labour Market Needs.

Project will be implemented by the consortium: Ilia State University (ISU),Georgia's Innovation and Technology Agency (GITA), ICT Cluster, and Innovative Education Foundation (IEF);

The project aims at designing and establishing School and VET institutions-based Coding and Tech Entrepreneurship Clubs in 100 locations across 8 target regions of Georgia during the next 3 years.

Expected results:
Tangible outputs of the project:

1. Curriculum of 10 IT courses is designed and used;
2. Web-Platform for Collaboration is actively used;
3. Functioning public/VET school-based clubs and GITA mini-hubs in 8 regions of Georgia, in total 100 places;
4. Regular contests and supporting events are organized;
5. Cooperation framework of Regional Clubs and IT Cluster and partner tech companies is established.
