**Project description:** [ankisistories.weebly.com](http://ankisistories.weebly.com)

The project "Women's Power" aims to support women and girls in four regions of Georgia (Kakheti, Guria, Racha and Imereti) to participate equally in economy and politics and change patriarchal mindsets and stereotypes. Feminist activists, including young people, will be trained and funded to implement local actions that contribute to increased women's political and economic participation. The action will result in tangible changes improving the lives of local women and men, girls and boys.

**Expected results:**

Result 1: 15 local empowerment and youth trainers will have 2 training tools (in Azerbaijani, Armenian, Georgian, Russian) addressing 4 key empowerment areas (political, economic, equality & rights, participatory sustainability planning and budgeting) and adapted to the local situation of women and minority groups.

Result 2: strengthened capacity of 240 local women and men from civil society and CSOs/CBIs, 650 youth and 150 WWDs who are able to use new (digital) skills to integrate their priorities into local decision-making and budgets, access public services and funds, increase economic independence and change mind-sets.

Result 3: 30 sub-granted community-actions and 60 youth-actions (30-35% of total budget) in the 4 regions are engaging 6000 local women, men and youth to increase their economic/political participation and their perspectives in (social) media.

Result 4: Strategic networking and community-data surveys ensure impactful policy participation and cooperation with elected local councils, parliamentarians and PM's office to enter target group needs and priorities into public budgets, programs
