

Support to Georgia's researchers' mobility

Period of implementation: 09.02.2022 - 09.02.2024

EaP countries:
Georgia

Total budget: € 1 405 000

Implementing organisation(s):
DAAD

Project website: www.eu-research.ge

Project description:

Promotion of internationalization of Georgia's STI sector, advancement of Georgian researchers' (including the young scientists) networking and contribution to the establishment of professional links with the respective counterparts from the EU, as well advancement of the capacity of Georgian research universities, scientific centres, research funding institutions, research-intensive SMEs and other public and/or private institutions involved in collaboration with the European research entities.

Expected results:

A mid-term researcher mobility fellowship scheme is developed and implemented that will foster international cooperation among Georgian and EU researchers and innovators is enhanced and sustainable professional contacts are established. The scientific productivity of Georgian researchers is increased and advanced and the knowledge of the EU best practices in R&I and experience gained by fellows through mid-term mobility scheme are shared and transferred in Georgia.

Tailored training measures are developed and implemented for R&I proposal writing for EU funded programmes and capacity development in proposal writing and project management for Horizon Europe and other EU R&I funding schemes.

Capacity development of Grant and Research Offices of higher education and research institutions. Awareness of the Georgian R&I funding agencies is raised on the EU's P2P initiatives (WIDENING).
