Project description:

This project aims to increase the economic competitiveness of Oni Municipality by creating and developing business clusters and making it more visible and attractive for potential investors. The anticipated impact of the project is an improvement in the social and economic conditions in the Oni Municipality expressed in the operation of more competitive MSMEs, as well as increased employment and investments.

The project will focus on three main target groups: local MSMEs; regional and municipal public officials; and the population of Oni Municipality.

Expected results:

1. Increased economic competitiveness of Oni Municipality MSMEs and growth of investments;
2. Improved social and economic conditions in the Oni municipality expressed in the operation of more competitive MSMEs, increased employment and investments.
