Project description:
The fourth phase of the EU Neighborhood—ENPARD program, Accelerated Rural Development in Kakheti and Imereti, aims to promote rural and agricultural development in the target areas. The project's objective is to maximize the use of local resource potential and to promote further independent development. The target group of the program: immigrants, representatives of minorities, people affected by the conflict, women, and young people.

Expected results:
1. Newly developed coordination mechanism allows for improved information management and communication among local communities and local authorities, agro-markets, tourism representatives.
2. A pilot project is developed by using the methodology of transfer of the best practice that was used in similar circumstances in Slovenia with the support programmes and sufficient financing that are provided for the start-up and scaling-up phases.
3. Over 60 vocational educational trainings are prepared and conducted in 2 regions and over 50 small grants are issued. The estimated budget of per grants vary between 5000 EUR-50 000 EUR. Up to 600 people are trained and ready to start their business.
4. Over 1 million individuals are reached out through awareness raising and advocacy campaigns; Local e-entrepreneurship
