The European Union for Georgia

Further Strengthening of the Georgian Statistical System

Funded by the European Union

Duration: 29.04.2024 - 31.10.2025

Countries:
Georgia

EU contribution: € 1 200 000

Implementer:
Statistics Finland, The Federal Statistical Office of Germany (Destatis), Italian National Institute of Statistics (Istat)

Project description:
The EU-funded Twinning project focuses on strengthening Georgia's National Statistical System With a budget of €1.2 million and aims to enhance Georgia's capacity in official statistics production and utilization.

Expected results:

Component 1
Enhanced Statistical Processes: Statistical processes aligned with the Generic Statistical Business Process Model (GSBPM).
Introduction of EU NUTS Classification: Implementing EU NUTS classification to improve regional statistics.
Adoption of DESAP: Systematic quality assessments using the DESAP self-assessment tool.
Component 2
Population Register Strategy: A developed and actionable plan for establishing a comprehensive population register.
Population Projections: Established methodology and capability for producing short and long-term population projections at regional and municipal levels.
Component 3
Increased Use of Administrative Data: More administrative data sources identified and utilized for official statistics.
Enhanced Data Usage for Decision-Making: Improved capacity of government institutions to use statistical data in policy development, monitoring, and evaluation.
