Project description:

The project contributes to achieving objectives agreed upon between the EU and Georgia in the programme on EU4Security, Accountability and Fight against Crime in Georgia (SAFE), specifically, in terms of consolidating prevention and fight against crime.

The project provides permanent, relevant and robust technical assistance, and builds upon the results made under the preceding criminal justice project.

The project works mainly with the newly-established Office of the State Inspector to enhance strategic and accountable approach, human resources management, separation of functions, specific prosecutorial and investigative practices, and the investigation.

Expected results:

- Developed SMART Strategies and Action Plans and Monitoring Mechanisms
- Enhanced personnel management
- Separated functions of prosecutors and investigators
- Improved prosecutorial and investigative practices
- Operationalised investigation by State Inspectorate.
