პროექტის
ვებგვერდი:
პროექტის აღწერა:

The action would aim at providing Ukrainian stakeholders in the area of JHA, including IBM and PAR, and possibly, depending on the available budget, also outside the JHA sector, with professional advice and hands-on support for IT-related matters

მოსალოდნელი შედეგები:

Ad hoc advice, baseline and “as is” assessments of existing IT and IT management capacity of selected stakeholders, studies and vision documents, final assessments of IT solutions/components and IT management capacity of stakeholders.

Roundtables, brainstorming sessions, training materials, report describing support given in training for the staff of selected stakeholders.

Ad-hoc policy recommendations and draft legislative and regulatory documents assessments for selected stakeholders in Ukraine.
